Dear Dr. Eigen:

STAT [] mentioned that your company had never heard from CIA regarding its offer to study our psychological test battery. There have been some criticisms about its validity and our Office of the Inspector General has undertaken a look at the exam as part of an omnibus study of our recruiting system. They have engaged outside experts to assist them and thus I believe our immediate needs are being met. I am sorry your interest in helping us did not get a response from us.

Sincerely, 1
